

SECTOR 50™ SCREENING

HQ&CO™

STREAMLINE YOUR OFFICE
AND BUSINESS ENVIRONMENT.
EMPOWER YOUR WORKPLACE.

Design

Sector 50™ creates comfortable, productive and harmonious work areas. Every detail has been considered in our endeavour to give our clients value and great looking screens. Built-in flexibility and minimal components allow reconfiguration with limited disruption and a precise professional installation.

Fast, flexible workplaces

Sector 50™'s innovative and practical design results in a simple and exceptionally effective connecting system. The unique patented height adjustment method ensures quick and accurate installation, allowing rapid churns and minimum downtime.

SECTOR 50™
THE POWERFUL OPEN PLAN
SCREENING SYSTEM

Superior cable management

Sector 50™'s unrivalled cable management facility has received recognition from power, voice and data contractors across the industry. The system is designed to accommodate a variety of soft wiring plug sets as well as a wide range of voice and data termination points.

With built-in power and voice data separation through integrated power poles and power panels, Sector 50™ provides seamless cable routing to the workstation, irrespective of power source i.e. ceiling, floor or wall skirting.

Power panels minimize the volume of power poles and allow for churning of work stations with minimum movement of cabling. Power and data termination is available above or below desk.

Sector 50™ power poles and power panels are integral elements in the range and connected in the same quick and easy method that the screens interconnect with each other.

Additional features:

- Off-desk excess cable storage compartment within the screen
- No loose power channel covers or skirting
- Screens are leveled from the top of each panel ensuring height adjustment doesn't interfere with cabling

DEFINE SPACE, CREATE SPACE
AND SAVE SPACE -
USE VERTICAL SPACE.

1. Pen and pencil holder 2. Notes tray 3. Sorting tray

Enhance personal space

The integrated or clip-on accessory rails accommodate a range of paper management tools, providing additional desk-top space.

Off-desk paper management tools include:

- Pen and pencil holder
- Note trays
- Sorting trays

By utilizing the vertical space provided by the system, workstations are able to be more organised and functional.

Specifications

Screen thickness

50mm

Screen heights

From 750mm to 2000mm

Screen widths

From 300mm to 2000mm

Panel finishes

Fabrics
Glass
Laminates
Wallpaper
Metal & aluminium perforated panels

Screen frame

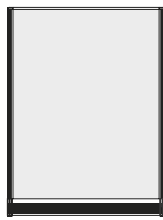

Aluminium

Aluminium finishes

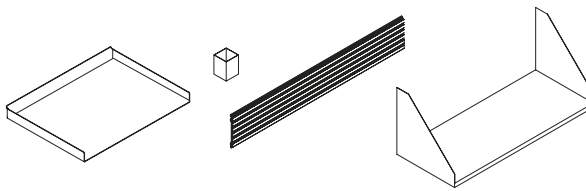

Anodised (natural, bright silver)
